

"Bryan" by SABERS President - Joyce

The life of Bryan !! He would like that, he was a big Monty Python fan!!! For those of you who have not known him long he led his life at a fast pace. There was always cars, boats, triathlons (when he was younger), pushbikes, more cars, another boat then bikes!! He has worked and travelled around this country and travelled overseas on quite a few adventures. He wouldn't admit it but he had great pride in his work and will be sadly missed in the bearing industry and I am sure that his many customers will miss that happy visit from him. I know he is a great loss to Gardner Bearings and the work family he had there. He loved weekend cartoons, lollies, Beano and Oor Wullie cartoon books, Simpsons, Southpark, cream cakes and coffee scrolls. He also liked to build things, fix things and had a passion for power tools and collecting them, lots of them! He was a man who could make you feel like you were his best friend within a very short time, a great strength. He loved long balmy summer evenings and crisp fresh clear spring mornings. There was a lot to Bryan and I feel lucky to have been able to have share his many passions. I will miss him dearly and grieve for him. His death has left wounds for many of us, these are different for all of us. My family are grieving for him, particularly my four young nieces who absolutely adored him. I personally will find it very difficult to ride again. The sadness will change and soon the happy memories and funny Bryan stories will surface and that would please him.

Please take this with you, tell the people you love and care about how much they mean to you, do that often. Life is too short for nonsense. Take care of yourselves in this sad time and remember the happy spirited Bryan.
